ABOUT THE GOOD ECONOMY

Founded in 2015, The Good Economy Partnership (TGE) has established itself as the UK's leading independent social impact advisory firm working at the forefront of impact investing in the UK and internationally. Our purpose, as the name suggests, is to facilitate the emergence of a 'good economy', one that works for everyone, both in the UK and around the world.

From strategy development to verification, The Good Economy helps organisations to define, measure, evaluate, report and verify impact investments that make a positive contribution to sustainable development. Our impact services are designed to meet the growing investor demand and market expectation for greater confidence and credibility in impact creation and are underpinned by three 'i's - intentionality, integration and integrity. We have strong sector specialism providing services to investors in social and affordable housing, commercial real estate, SME finance and health.

TGE's diverse clients include large-scale asset managers, private equity investors, specialist social impact investors, pension funds, development finance institutions, businesses, social enterprises, charities and government bodies. Our clients operate in the UK, Europe and emerging markets.

TGE is an accredited Living Wage Employer.

POSITION SUMMARY

The Good Economy (TGE) is looking to recruit an Impact Analyst. The role involves providing research and analysis related to client projects, with a focus on assessing the impact of investments and identifying ways to maximise positive social benefits.

KEY PURPOSE OF ROLE

This role will help deliver TGE's impact advisory services, particularly in social impact measurement and management as well as social impact strategy design. You will be required to develop relationships with stakeholders throughout the investment chain – we work closely with investment managers, investee businesses and asset owners, such as pension funds.

LOCATION

The role requires some UK travel for client and site visits and may involve international travel.

KEY RESPONSIBILITIES

- Complete the day-to-day tasks of specific client projects, ensuring the delivery of high-quality, impact advisory services within an agreed timeframe.
- Provide research and analysis support to ongoing impact assessment projects for clients with a focus on ensuring social accountability and transparency, maximising their positive social impact. In addition, contribute to ongoing reflection and learning to inform clients' strategy, operations and impact investment models. Specific responsibilities include:
 - Carry out social due diligence of individual investment projects, including site visits and stakeholder interviews.
 - Support the analysis and production of social impact reports based on both quantitative and qualitative analysis.
 - Support the design and development of social impact / social value strategies for organisations looking to enhance their social impact.
- Support new business development, including bid writing.

This role profile is not exhaustive; it will be subject to periodic review and may be amended to meet the changing needs of the business.

QUALIFICATIONS AND EXPERIENCE

- Experience of monitoring and evaluation or impact assessment work.
- Experience in an analytical role; and demonstrated experience writing reports.
- Demonstrated experience using MS suite (Excel etc.)
- Experience working in a relevant sector: social housing, commercial real estate markets, local economic development, impact investing etc.

BEHAVIOURS AND COMPETENCIES

We are looking for individuals who share our social values and are excited by the idea of working for a growing, purpose-led company. Below are some of the behaviours and competencies we'd expect the successful candidate to display:

<p>Helpful</p>	<ul style="list-style-type: none"> • Listens to customers and colleagues and offers support as required. • Demonstrates a strong customer service mindset. • Shows strong people skills and an ability to communicate effectively. • Demonstrates an understanding of the different perspectives of stakeholder groups in the private, public and social economy sectors.
